Asia banking and payments challenges

- Traditional **corporate bank accounts** are **difficult** and **time-consuming** to open.
- **Multi-currency** account options are limited to **one location**.
- Moving money between accounts in different countries is **slow** and **expensive**.
- **Foreign exchange** is expensive and can contain **hidden spreads**.
- **Corporate cards** are difficult to obtain.

How we can solve these challenges

- ★ Online, **remote** multi-currency account opening.
- ★ Worldwide **virtual account** details for your business.
- ★ Fast, low-cost **global bank transfers**.
- ★ Transparent and affordable **foreign exchange**.
- ★ Virtual **Visa Business cards**, ready to use in seconds.

In summary - our recommendations

Fintech solutions and traditional banking can work together as you grow your business in Asia.

1. Remotely open a virtual banking and payments solution
2. Establish your Asian business presence and fund flows
3. Take your time to open a corporate bank account
4. Use digital solutions to expand across borders
